Step one: Go to the RWW web site - see the pink stuff -

Step two - say okay to trusting the site (that "Continue to this web site" part.
Step three - view the Certificate information

Step four - install the certificate

Steps five through whatever - just follow the wizards.

Certificate Import Wizard

Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.
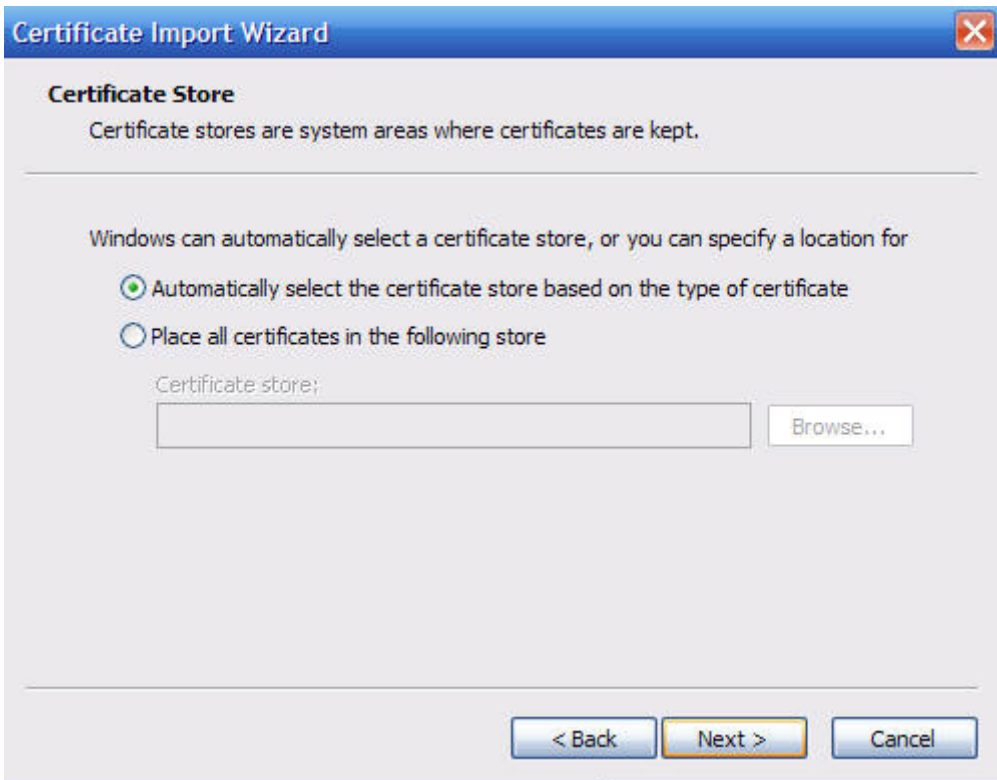

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.

Certificate Import Wizard

Completing the Certificate Import Wizard

You have successfully completed the Certificate Import wizard.

You have specified the following settings:

Certificate Store Selected	Automatically determined by t
Content	Certificate

[< Back] [Finish] [Cancel]

Warning:
If you install this root certificate, Windows will automatically trust any certificate issued by this CA. thumbprint is a security risk. If you click "Yes" you acknowledge this risk.

Do you want to install this certificate?

[Yes] [No]

Once you've 'sucked in the certificate, the RWW site no longer is red and this isn't an issue. You won't get a red URL.
